Looking for casual or part time employment? Join the newsletter email list at Explore Careers to receive updates from employers such as Coles, Supre and McDonald's, <http://bit.ly/2yhOJ88>

Have you considered studying neuroscience?

Neuroscience is the study of how the brain and nervous system impact behaviour, actions and cognitive thinking.

Students can specialise in areas such as behavioural neuroscience, neuroimaging, social neuroscience, molecular neuroscience, and neuro-linguistics etc.

Research is undertaken in areas such as music, sport, schizophrenia, epilepsy, stroke, Alzheimer's Disease, and Huntington's Disease etc.

Studying neuroscience would suit students who are interested in science, research and lab work. It's advisable to study subjects such as advanced mathematics, biology, chemistry, psychology and physics at school.

To become a neurologist or neurosurgeon, you will need to study a medical degree first.

Victorian universities are leaders in the fields of neuroscience and neuropsychology research. The following are two universities that offer neuroscience as a major at the undergraduate level:

- **Swinburne University:** can major in Neuroscience through the Bachelor of Health Science and Bachelor of Health Science (Professional). Can apply to study a co-major in Psychology, <http://bit.ly/2hrMt42>
- **The University of Melbourne,** can major in Neuroscience through the Bachelor of Biomedicine or the Bachelor of Science, <http://bit.ly/2rWjXhe>

You can read about the amazing neuroscience research being undertaken by Monash University at this link - <http://bit.ly/2gQZUd7>

Work Experience: Year 9 and 10 students can apply to undertake a week of work experience at the Melbourne Neuroscience Institute. Students need to apply between 4 December – 31 January and successful applicants will complete the work experience in 2018, <http://bit.ly/2yhXxem>
