PLAN FOR OPEN DAYS

Each year universities, TAFE Institutes and private colleges open their doors to the public to showcase what they can offer to future students. To ensure you make the right decisions about what you would like to study after school, it is essential you attend as many open days as possible.

Step 1

Make a list of the institutions you would like to visit. Use the course search function on VTAC – www.vtac.edu.au to explore Victorian courses and on UAC – www.uac.edu.au to explore NSW and ACT courses.

Step 2

Explore the Open Day websites for the institutions you would like to visit. Sign up to receive email updates or join Open Day Facebook/Instagram pages. View videos of last year's events if they are available.

Step 3

Download the Open Day program from the institute website and campus maps. Highlight which seminars and demonstrations you would like to attend. Alternatively, use the online planner.

Step 4

Make a list of questions you would like to ask on the day. Take along a note pad and pen and attend as many seminars as possible. You may be able to visit two institutions if their Open Days fall on the same date.

Step 5

Follow up with your Career Adviser about what you have learnt at Open Days and update your Career Action Plan.
